B. ENROLLMENT AND PERSISTENCE

B1 Institutional Enrollment - Men and Women

Provide numbers of students for each of the following categories as of the institution's official fall reporting
Note: Report students formerly designated as first professional in the graduate cells.

For information on reporting study abroad students please see: https://nces.ed.gov/ipeds/pdf/Reporting_

If your institution collects and reports non-binary gender data, please use the "Another Gender" category.

In cases where gender information is not provided, please distribute across the two-binary categories.

Dual Enrollment: If your institution enrolls high school students in college courses for credit either within or outside of a dual enrollment program, you may report the unduplicated count as part of the full- or part-time section.

Undergraduate Students: Full-Time	Men	Women	Another Gender

B2 Enrollment by Racial/Ethnic Category.

Provide numbers of undergraduate students for each of the following categories as of the institution's official 2024.

Include international students only in the category "Nonresidents."

Complete the Total Undergraduates column only if you cannot provide data for the first two columns.

Report as your institution reports to IPEDS: persons who are Hispanic should be reported only on the Hispanic line, not under any race, and persons who are non-Hispanic multi-racial should be reported only under "Two or more races."

New guidance from IPEDS for reporting aggregate data:

Racial/ethnic designations are requested only for United States citizens, residents, and other eligible non-citizens. Eligible non-citizens include all students who completed high school or a GED equivalency within the United States (including DACA and undocumented students) and who were not on an F-1 non-immigrant student visa at the time of high school graduation.

[More information about other eligible \(for financial aid purposes\) non-citizens is available at](https://studentaid.gov/understandaid/eligibility/requirements/non-us-citizens)

[https://studentaid.gov/understandaid/eligibility/requirements/non-us-citizens.](https://studentaid.gov/understandaid/eligibility/requirements/non-us-citizens)

Nonresident - A person who is not a citizen or national of the United States and who is in this country on a temporary basis and does not have the right to remain indefinitely. Do not include DACA, undocumented students, or eligible noncitizens in this category.

NOTE - Nonresidents are to be reported separately, in the boxes provided, rather than included in any of the racial/ethnic categories or in race/ethnicity unknown.

Dual Enrollment: If your institution enrolls high school students in college courses for credit either within a dual enrollment program or outside of a dual enrollment program, you may report the unduplicated count as part of the degree-seeking students included in the Total Undergraduates (both degree & non-degree-seeking) section.

B4-B21: Graduation Rates

The items in this section correspond to data elements collected by the IPEDS Web-based Data Collection (GRS).

For complete instructions and definitions of data elements, see the IPEDS GRS Forms and Instructions for the 2024-2025 Survey. <https://nces.ed.gov/ipeds/use-the-data/survey-components/9/graduation-rates>

In the following section for bachelor s or equivalent programs, please disaggregate the Fall 2017 : B4-B11) into four groups:

Students who received a Federal Pell Grant*

Recipients of a subsidized Stafford Loan who did not receive a Pell Grant

Students who did not receive either a Pell Grant or a subsidized Stafford Loan

Total (all students, regardless of Pell Grant or subsidized loan status)

*Students who received both a Federal Pell Grant and a subsidized Stafford Loan should be reported in the column.

For each graduation rate grid below, the numbers in the first three columns for Questions A-G should sum (formerly CDS B4-B11).

For Bachelor s or Equivalent Programs

Please provide data for the **Fall 2018** cohort if available. If Fall 2018 cohort data are not available, provide **2017** cohort.

C. FIRST-TIME, FIRST-YEAR ADMISSION

C1-C2: Applications

C1 First-time, first-year students: Provide the number of degree-seeking, first-time, first-year students who enrolled (full- or part-time) in Fall 2024.

Include early decision, early action, and students who began studies during summer in this cohort. Applicants should include only those students who fulfilled the requirements for consideration for admission (i.e., who completed actionable applications) and who have been notified of one of the following actions: admission, non-admission, placement on waiting list, or application withdrawn (by applicant or institution).

Since the total may include students who did not provide gender data, the detail need not sum to the total.

If your institution collects and reports non-binary gender data, please use the "Another Gender" category.

Note that recent high school graduates and other students without prior postsecondary experience will be reported as "first-time, first-year students" for fall enrollment reporting purposes even if they enrolled in the summer prior to fall enrollment.

Provide numbers of students for each of the following categories as of the institution's official fall report.

First-Time, First-Year Student Applicants	Total
Total first-time, first-year men who applied	20,851
Total first-time, first-year women who applied	24,553

Do not include partial test scores (e.g., mathematics scores but not critical reading for a category of students) or combine other standardized test results (such as TOEFL) in this item.

Do not convert SAT scores to ACT scores and vice versa.

If a student submitted multiple sets of scores for a single test, report this information according to how you use the data. For example:

If you consider the highest scores from either submission, use the highest combination of scores (e.g., verbal from one submission, math from the other).

If you average the scores, use the average to report the scores.

G1 Undergraduate full-time tuition, required fees, food and housing

List the typical tuition, required fees, and food and housing for a full-time undergraduate student for the FULL 2025-2026 academic year. (30 semester hours or 45 quarter hours for institutions that derive annual tuition by multiplying credit hour cost by number of credits).

A full academic year refers to the period of time generally extending from September to June; usually

equated to two semesters, two trimesters, three quarters, or the period covered by a four-one-four plan.

Food and housing is defined as double occupancy and 19 meals per week or the maximum meal plan.

Required fees include only charges that all full-time students must pay that are **not** included in tuition

(e.g., registration, health, or activity fees.)

Do **not** include optional fees (e.g., parking, laboratory use).

H. FINANCIAL AID

Please refer to the following financial aid definitions when completing Section H.

Awarded aid: The dollar amounts offered to financial aid applicants.

Financial aid applicant: Any applicant who submits any one of the institutionally required financial aid applications/forms, such as the FAFSA.

Indebtedness: Aggregate dollar amount borrowed through any loan program (federal, state, subsidized, unsubsidized, private, etc.; excluding parent loans) while the student was enrolled at an institution. Student loans co-signed by a parent are assumed to be the responsibility of the student and **should** be included.

Institutional scholarships and grants: Endowed scholarships, annual gifts and tuition funded grants for which the institution determines the recipient.

Financial need: As determined by your institution using the federal methodology and/or your institution's own standards.

Need-based aid: College-funded or college-administered award from institutional, state, federal, or other sources for which a student must have financial need to qualify. This includes both institutional and non-institutional student aid (grants, jobs, and loans).

Need-based scholarship or grant aid: Scholarships and grants from institutional, state, federal, or other sources for which a student must have financial need to qualify.

Need-based self-help aid: Loans and jobs from institutional, state, federal, or other sources for which a student must demonstrate financial need to qualify.

Non-need-based scholarship or grant aid: Scholarships and grants, gifts, or merit-based aid from institutional, state, federal, or other sources (including unrestricted funds or gifts and endowment income) awarded solely on the basis of academic achievement, merit, or any other non-need-based reason. When reporting questions H1 and H2, non-need-based aid that is used to meet need should be counted as need-based aid.

Note: Suggested order of precedence for counting non-need money as need-based:

- | | |
|----------------------------------|----------------------------|
| 1. Non-need institutional grants | 6. Non-need outside grants |
| 2. Non-need tuition waivers | 7. Non-need student loans |
| 3. Non-need athletic awards | 8. Non-need parent loans |
| 4. Non-need federal grants | 9. Non-need work |
| 5. Non-need state grants | |

Non-need-based self-help aid: Loans and jobs from institutional, state, or other sources for which a student need not demonstrate financial need to qualify.

Private student loans: A nonfederal loan made by a lender such as a bank, credit union or private lender used to pay for up to the annual cost of education, less any financial aid received.

External scholarships and grants: Scholarships and grants received from outside (private) sources that students bring with them (e.g., Kiwanis, National Merit scholarships). The institution may process paperwork to receive the dollars, but it has no role in determining the recipient or the dollar amount awarded.

Work study and employment: Federal and state work study aid, and any employment packaged by your institution in financial aid awards.

Aid Awarded to Enrolled Undergraduates

H1 Enter total dollar amounts **awarded** to enrolled full-time and less than full-time degree-seeking undergraduates **(using the same cohort reported in CDS Question B1, total degree-seeking undergraduates)** in the following categories.

If the data being reported are final figures for the 2023-2024 academic year (see the next item below), use the 2023-2024 academic year's CDS Question B1 cohort.

Include aid awarded to international students (i.e., those not qualifying for federal aid).

Aid that is non-need-based but that was used to meet need should be reported in the need-based aid column.

For a suggested order of precedence in assigning categories of aid to cover need, see the entry for non-need-based scholarship or grant aid on the last page of the definitions section.

Indicate the academic year for which data are reported for **items H1, H2, H2A, and H6** below:

H5. Number and percent of students in class (defined in H4 above) borrowing from federal, non-federal, and any loan sources, and the average (or mean) amount borrowed.

The Average per-undergraduate-borrower cumulative principal borrowed, is designed to provide better information about student borrowing from federal and nonfederal (institutional, state, commercial) sources.

The numbers, percentages, and averages for each row should be based only on the loan source specified for the particular row. For example, the federal loans average (row b) should only be the cumulative average of federal loans and the private loans average (row e) should only be the cumulative average of private loans.

I. INSTRUCTIONAL FACULTY AND CLASS

I-1. Please report the number of instructional faculty members in each category for Fall 2024. Include payroll on the census date your institution uses for IPEDS/AAUP.

The following definition of full-time instructional faculty is used by the American Association of University Professors (the part-time definitions are not used by AAUP). Instructional Faculty is defined as those members of the faculty whose primary assignment is instruction, including those with released time for research. Use the chart below to determine inclusion.

A	Instructional faculty in preclinical and clinical medicine, faculty who are not paid (e.g., those who donate their services in the military), or research-only faculty, post-doctoral fellows, or pre-doctoral fellows
B	Administrative officers with titles such as dean of students, librarian, registrar, coach, and the like, even though they devote part of their time to classroom instruction and may have faculty status
C	Other administrators/staff who teach one or more non-clinical credit courses even though they do not have a faculty title
D	Undergraduate or graduate students who assist in the instruction of courses, but have titles such as teaching assistant, teaching fellow, and the like
E	Faculty on sabbatical or leave with pay
F	Faculty on leave without pay
G	Replacement faculty for faculty on sabbatical leave or leave with pay

Full-time instructional faculty: faculty employed on a full-time basis for instruction (including those with released time for research).

Part-time instructional faculty: Adjuncts and other instructors being paid solely for part-time classroom instruction, two semesters, three quarters, two trimesters, or two four-month sessions. Employees who are not considered non-clinical credit courses may be counted as part-time faculty.

Minority faculty: includes faculty who designate themselves as Black, non-Hispanic; American Indian or Alaska Native, or Hispanic.

Doctorate: includes such degrees as Doctor of Philosophy, Doctor of Education, Doctor of Juridical Science, and the like in the sciences, education, engineering, business, and public administration. Also includes terminal degrees formerly (DDS or DMD), medicine (MD), optometry (OD), osteopathic medicine (DO), pharmacy (DPharm or BPharm), podiatric (DPM or DCP), chiropractic (DC or DCM), or law (JD).

Terminal master's degree: a master's degree that is considered the highest degree in a field: example, M. A. or M. Ed. (or theater).

A	Total number of instructional faculty
B	Total number who are members of minority groups
C	Total number who are women
D	Total number who are men
E	Total number who are nonresidents (international)
F	Total number with doctorate, or other terminal degree
G	Total number whose highest degree is a master's but not a terminal master's
H	Total number whose highest degree is a bachelor's
I	Total number whose highest degree is unknown or other (Note: Items f, g, h, and i must sum up to item a.)
J	Total number in stand-alone graduate/professional programs in which faculty teach virtually only graduate-level students

I-2. Student to Faculty Ratio

Report the Fall 2024 ratio of full-time equivalent students (full-time plus 1/3 part time) to full-time equivalent faculty. In the ratio calculations, exclude both faculty and students in stand-alone graduate or professional programs in dentistry, social work, business, or public health in which faculty teach virtually only graduate level students. Do not count undergraduate or graduate student teaching assistants as faculty.

Fall 2024 Student to Faculty ratio	8	to 1
------------------------------------	---	------

I-3. Undergraduate Class Size

In the table below, please use the following definitions to report information about the size of classes:

Class Sections: A class section is an organized course offered for credit, identified by discipline and section number, in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude individual instruction such as dissertation or thesis research, music instruction, or one-to-one reading sessions. Co-operative programs, internships, foreign language taped tutor sessions, practicums, and all student teaching sections should be counted only once and should not be duplicated because of course catalog cross-listings.

Class Subsections: A class subsection includes any subsection of a course, such as laboratory, recitation, or supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each subsection should be counted only once and should not be duplicated because of cross-listings.

Using the above definitions, please report for each of the following class-size intervals the number of class sections and subsections offered in Fall 2024. For example, a lecture class with 800 students who met at another time in 40 separate lab sections would be reported in the 100+ column in the class section column and 40 times under the 20-29 column of the class subsection column.

J. Disciplinary areas of DEGREES CONFERRED

J1 Degrees conferred between July 1, 2023 and June 30, 2024

For each of the following discipline areas, provide the percentage of diplomas/certificates, associate, and bachelor's degrees conferred. To determine the percentage, use majors, not headcount (e.g., students with one degree but a double major will be counted once). Calculate the percentage from your institution's IPEDS Completions by using the sum of 1st and 2nd majors for each discipline as the numerator and the sum of the Grand Total by 1st Majors and the Grand Total by 2nd major as the denominator. If you only have data for 1st majors, compute the percentages using 1st majors only.
